## SUMMARY:

I am a self-experimenter and analysis enthusiast who is passionate about influencing the world via innovative technologies, experimentation, and collaborating with experts from various fields. I enjoy spending my work time using tools and technology to produce tangible results and finding solutions, as well as designing and performing intellectually challenging tasks.

Passionate, highly technically-minded individual with a meticulous attention to detail and a broad skill set in a fast-paced global software engineering team. Experienced with cross-team collaboration in the fast paced environment.

## EMPLOYMENT:

### Software Quality Assurance Engineer Lead | EventBase Technology

Apr2016 - Dec 2018

*Previous roles at Eventbase: Quality Assurance Engineer*
